

## OGB Launches ACA Compliance Website

The passing of the Affordable Care Act (ACA) in 2010 created a variety of new provisions and requirements for employers. This year employers are subject to the Employer Shared Responsibility Provisions and the reporting requirements that go along with them.

OGB has created a [website](#) for our participating agencies that will provide you with helpful information as you comply with the ACA. This website is not intended to serve as legal advice. It is intended to serve as a resource to help you become acquainted with the ACA guidelines and IRS reporting requirements. The IRS website provides more in-depth information on these guidelines.

OGB will conduct regional seminars for non-LaGov agencies to discuss further the ACA guidelines and reporting requirements. Training for LaGov agencies will be conducted by the Office of State Uniform Payroll. The OGB training seminars for non-LaGov agencies will begin in August and should be attended by the Agency Benefit Coordinators, as well as any person responsible for payroll analysis and IRS reporting requirements. More information will be provided on the training dates and locations.

OGB will also provide agencies with a data file, beginning in August that will assist in completing the required IRS reports. We will send out a memo when those reports are available on the Agency section of the OGB website.
